

Art Knowledge Organiser: Year 1 / 2 Autumn Term
Explore and Draw

Explore - Inquire into or discuss in detail

Light Shade - The contrast between lighter and darker areas in a painting

Photograph - A picture using a camera, in which an image is focused on a light sensitive material and then made visible and permanent by chemical treatment.

Observation – drawing what you see

We can control the lines we make by being aware of how we hold a drawing tool, how much **pressure** we apply, and how fast or slow we move.

Drawing is a physical and emotional activity. When we draw, we can move our whole body.

Andy Goldsworthy: Creative Art

Andy Goldsworthy says: "Art has this amazing ability to show you what's there."

"Explore & Draw" can refer to educational programs and workshops designed to introduce foundational drawing skills, like observational drawing, mark-making, and composition.
