

Year 2 and 3 Centaur Class Home Learning Challenges

Term 5

Topic: Forces of Nature- Volcanoes and Earthquakes

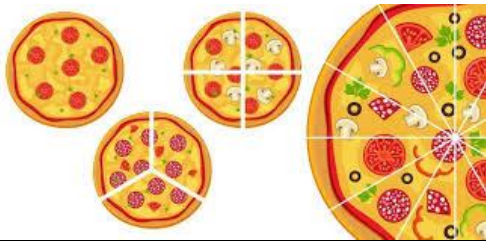

How many of these challenges can you complete this term?

Maths

Fraction Hunt at Home

Find objects at home that can be shared equally into halves or quarters (e.g., sandwich, apple, pizza).

Task: Draw or take a photo of something you cut into halves or quarters.

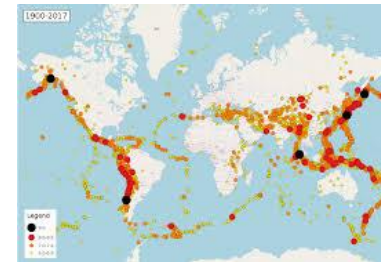

Writing

Write your own story which is set by a volcano erupting. What did you see while it erupted? Can you describe how the characters felt whilst watching it erupt? Did anything go wrong? How did your characters escape?

Geography

Create a world map showing where famous eruptions and earthquakes have occurred. Add images and notes to show/give extra information.

Research

Can you create a fact file about a Volcano somewhere in the world.

Can you include: Where it is in the world?

How tall it is? When it last erupted?

Can you explain how a volcano is formed and why they erupt? Can you include a picture or diagram?

Creative

Homemade Volcano

Make a homemade volcano using bicarbonate of soda and vinegar. Go careful because it could get messy!

Science

We are learning all about plants!
Can you use some seeds from any fruit or vegetable and plant them?
Take a picture to show us the progress!

Please continue to read every day with your child at home, we appreciate all your effort and support!
